SVA Study on Animal Genetic Resources

2004

Approved by:

Sarah Hanson
U.S. Embassy

Prepared by:

Sanela Stanojcic

Report Highlights:

Bosnia and Herzegovina State Veterinary Administration (SVA) has completed a study on the country's animal genetic resources. This is the first study done after 1992-1995 war, which resulted in extensive losses in the livestock sector and changes in animal genetic resources. The study provides general information on the country, its agricultural/livestock sector, animal genetics, and statistics. It also identifies the main problems and priorities for the livestock sector and reviews the sector's institutions and regulations.

Includes PSD Changes: No
Includes Trade Matrix: No
Unscheduled Report
